HOUSEHOLDS BY RACE/ETHNICITY IN FORT BEND COUNTY

How has the number of ALICE households changed by race/ethnicity?

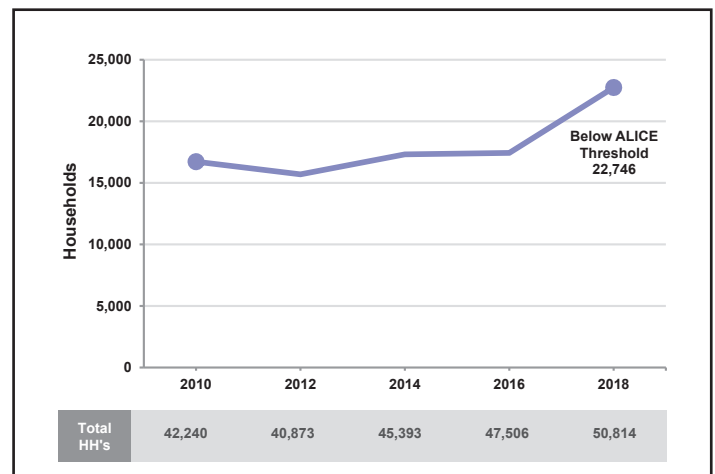

Fort Bend County's largest racial/ethnic groups followed very different trajectories in both population size and levels of financial hardship from 2010 to 2018. White households were the largest group in Fort Bend County, growing 22%. The next largest group, Hispanic households, grew by 46%, followed by Black and Asian households. Financial hardship increased across all racial/ethnic groups, but at different rates. White households below the ALICE Threshold grew by 52%, while the number of Hispanic households below the ALICE Threshold grew by 71%, Black households increased by 36%, and Asian households increased by 87%.

Many of these subgroups have small populations, in which case even small changes in numbers can produce large swings in percentages. Therefore, it is most useful to focus on the general trends and not year-to-year fluctuations.

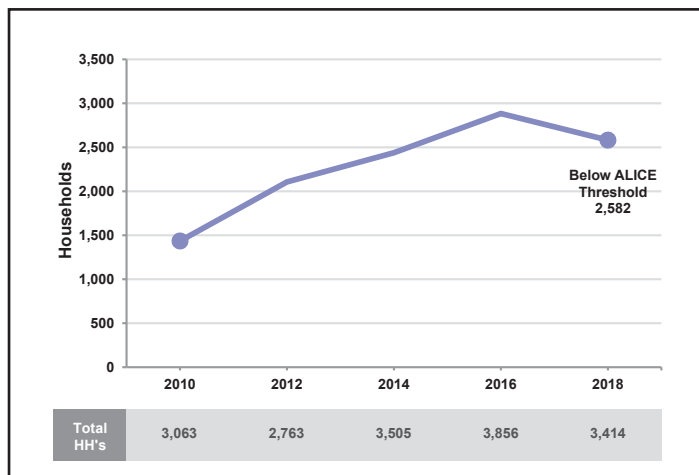

HOUSEHOLDS BY AGE IN FORT BEND COUNTY

How has the number of ALICE households changed by age group?

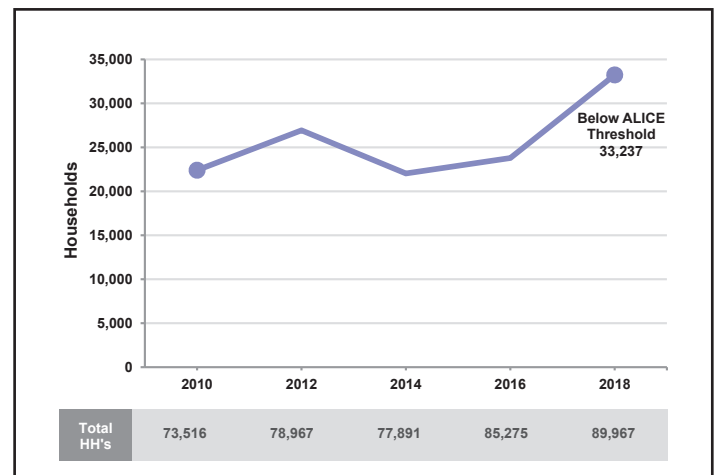

The largest age group in Fort Bend County in 2018 was 45- to 64-year-olds, followed by 25- to 44-year-olds, seniors, and under-25-year-olds. Changes in financial hardship differed across age groups between 2010 and 2018, but younger and older households were more likely to be ALICE or living in poverty. The youngest group (under 25 years) had an 80% increase in the number of households below the ALICE Threshold from 2010 to 2018. Senior households below the ALICE Threshold grew by 73%. For those in their prime working years, the number of households below the ALICE Threshold increased by 48% for those aged 25-44 years and increased by 62% for those aged 45-64.

HOUSEHOLD COMPOSITION IN FORT BEND COUNTY

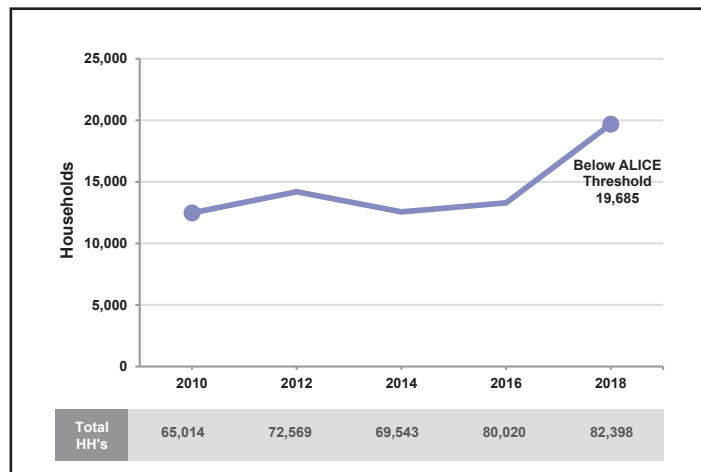

How has the number of ALICE households changed by household composition?

In Fort Bend County, single or cohabiting households (without children or seniors) were the second largest household type, accounting for 41% of all households and 45% of households below the ALICE Threshold in 2018. Seniors accounted for 18% of all households, and families with children for 41%.

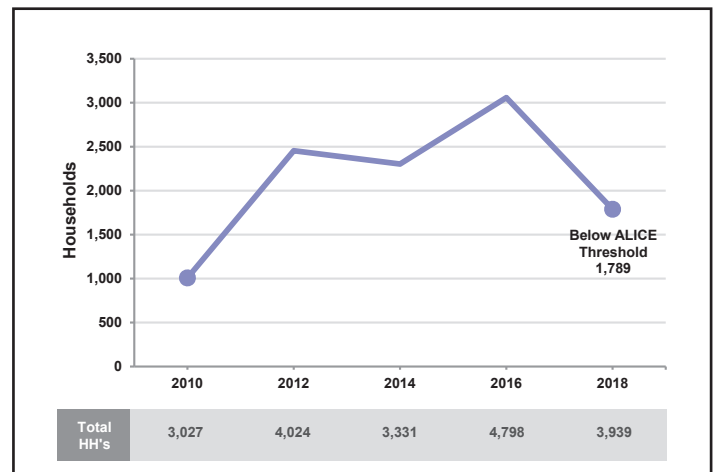

Changing demographics resulted in a 24% increase in the total number of families with children in Fort Bend County from 2010 to 2018. But trends differed depending on family type. The number of married-parent families increased by 27%, while their number below the ALICE Threshold increased by 58%. The number of single-female-headed families increased by 11%, while their number below the ALICE Threshold increased by 23%, and the number of single-male-headed families increased by 30%, while their number below the ALICE Threshold increased by 77%.
