

## **AMAZING ANAGRAM Game**

An ANAGRAM is defined as words made from the letters of another word. These word puzzles are really fun to work out! For example, using the T, E, A and the M in HOUSTON ELEMENTARY you can create the word TEAM.

Once you find your list of words use them to write your own story. After you've finished your story, turn the page over and draw a picture to illustrate the story.

## **HOUSTON ELEMENTARY**

Team (example)					
Write your story, using your words from your list above:
